

Stem at Yale: Up Down Up: History of Science and Engineering at Yale University

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.
(Prof. Loyce Runolfsson Jr.)

STEM AT YALE: UP DOWN UP: HISTORY OF SCIENCE AND ENGINEERING AT YALE UNIVERSITY

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.STEM at Yale: Up Down Up This book is a history that tracks Yale s progress in science, technology, engineering and mathematics (STEM) over two centuries. This period includes three major wars, numerous recessions, and one Great Depression. Yale University is now fully capable of meeting the enormous challenge of preparing highly intelligent students to forward mankind s quest for a better world. In my extensive research to write this book, I perused the writings and biographies of many great people. We begin with President Timothy Dwight IV and Benjamin Silliman, two Yale legends who brought science and engineering to Yale. Dwight s goal was the formation of the Yale Medical School, and Silliman was the creative force that made this happen. Silliman, in his continuing enquiry into new sciences, was also responsible for the Yale Scientific School, the first geology department in the country, and the building of the Peabody Museum. Joseph Sheffield emerges in the midst of the 19th century as the philanthropic supporter of a separate Sheffield Scientific School that grew rapidly to become the leading school of its kind in the United States. The turn of the century in 1900, combined with Yale s 200th anniversary in 1901, brought many alumni organizations into being, including the Yale Engineering Association, founded in 1914 on the eve of WWI. The Yale Aero Club and Marc Wortman s compelling book, The Millionaires Unit introduced me to Trubee Davison and John Hammond, a Yale Sheffield Scientific School graduate and aviation pioneer, formed the first U.S. Navy air patrol unit during World War I. These Yale men are the acknowledged founders of the U.S. Naval Air...
