Jaypee Brothers Medical Publishers (P) Ltd., 2012. Softcover. Book Condition: New. 4th edition. Ophthalmic Dictionary and Vocabulary Builder is a desk-size reference for ophthalmic words. The book is divided into different sections to cover every sector of ophthalmology and provides the origins of words to assist learning. Authored by recognised authorities in Canada and the USA, this fourth edition has 150 images and illustrations and a new chapter on refractive surgery and imaging words such as OCT. New Edition The fourth edition of this book is well illustrated and written with easy to understand definitions. Unlike other dictionaries it provides 29 chapters by pertinent sections so that the reader can remember and build a foundation of words in ophthalmology. The unique feature of the dictionary is that individual professionals in the field of eye care will be able to learn the newer vocabulary as well as spellings. This book is divided into sections. Part of the book is divided into cross reference in an alphabetical dictionary format. While looking for any particular word, you can look in the dictionary section and refer to the vocabulary-building portion. The text of each chapter introduces the most commonly used words in the section. Table of Contents Part One: Dictionary Part Two: Vocabulary Builder Section 1: Basic Science 1. Anatomy 2.
