 read, but many people find it impossible to visit the theatre
 regularly and it is for them that Professor Styan intends this
 book, originally published in 1965, to promote better
 understanding of the dramatist's intentions and fuller enjoyment
 of the play. He defines what a play is and discusses such topics
 as the development of the theatre - its different stages, kinds of
 drama and types of character - the tone and tempo in which the
 play is written, the roles of actor and audience and the structure
 and interplay of plot and subplot. Charts of theatrical history, a
 glossary and reading lists, as well as drawings and diagrams by
 David Gentleman, provide further help for the reader.
