Its existence, indeed, as a complaint separate and distinct from croup, has been a fruitful source of controversy upon the continent, where it is much less frequent than in this country: - but, even here, constantly as we have opportunities of observing it, the opinions of the profession are still unsettled as to its pathology and treatment. The views hitherto entertained by those, who have either written expressly on this malady, or noticed it incidentally in their writings, have been much wanting in precision, perspicuity, and accuracy.
