Date :2007-09-01 version 1. This book focuses on automotive engine test techniques and methods. involving mechanical. electrical. thermal. automation. data acquisition and signal processing and other subject knowledge. Book according to the requirements of curriculum and teaching content. combined with international practice and national conditions. the emissions performance test made greater enrichment. The book is divided into four chapters: the main contents of Introduction to automotive engine testing. engine test of the basic requirements; engine performance test of the specific requirements; engine emissions performance test; Schedule and other test parameters. Engine-related performance tests. including tests and emissions performance test of two parts. This book is the vehicle mechanical engineering disciplines. mechanical design and manufacturing and automation. mechanical and electrical engineering. industrial engineering. materials. shape control engineering undergraduate compulsory internal combustion engine principle. car theory. Thermal Engineering. Vehicle Engineering undergraduate elective engine design. The combustion dynamics. internal combustion engine work process analysis. Engine Combustion and Emissions Control. The combustion gas flow calculations and numerical analysis. internal combustion engine testing technology. the teaching experiment materials ; also be used as power engineering. energy engineering. power machinery and engineering undergraduate courses. Thermal Engineering. combustion. Combustion and Environmental Protection. New Energy Dynamics. new energy technology of teaching teaching and research experiments. and in automotive engine technology research staff and graduate students and reference books. Contents: Chapter 1 Introduction 1.1 Test 1.2 trial preparation phase pilot implementation phase 1.3 Summary Chapter 2 stage engine performance test 2.1 Overview 2.2 engine torque and speed performance test 2.2.1 2.2.2 Measurement of fuel consumption measurement and comparison of fuel 2.2.3 The measurement of gas flow test and charge the amount...
