Excerpt: .three wings; the first 22x65 feet, the second 20x50 feet, and the third 20x22 feet, with an engine house of stone in addition, 20x30 feet. The engine is of 25 horse-power, and was manufactured at the Star Works in Hastings. It is a double engine, having two cylinders, each seven inches in diameter, with a 12-inch stroke. The boiler is twelve feet long, and has thirty 3-inch flues. The supply of water is from a well in the boiler-house, drilled in the solid rock to a depth of sixty-five feet, and having a 6-inch diameter. The machine work is almost entirely done on the first floors. In the first wing below are two planers, a mortiser one sand-papering machine, one moulder, two blind machines, one scroll saw, two cut-off saws, two circular saws and a turning lathe. The second room below contains a matching and resawing machine; while the third room is used entirely for putting up sash and doors. In the second story are two rooms, one used for the storing of finished work. and the other for the making of that work itself. In the latter room is a boring machine, a shaping machine, and a cutting-off saw. The Bell Bros. usually employ from ten to fifteen hands. Besides their jobbing orders they also do a large retail business, and are the principal undertakers in the city. Their furniture store is located at the corner of Third and Vermillion streets, and is of brick, 22x90...
